I help founders stop burning ad budget on pages that don't convert →

Toronto, Ontario, Canada

Summary

Your landing page is costing you more than you think. Most founders with zero conversions blame the ad. The ad is fine. The page isn't. I audit landing pages for the exact spots where ad spend disappears: above-fold clarity, message match, trust signals, CTA placement, social proof. 86 audits. Every single one had at least one critical conversion leak.
